

Unicorn Therapeutic Riding

Fall 2022

Temperatures are starting to drop and we are preparing for some cold winter riding lessons! Please remember to dress warm when coming to the barn-- coats, gloves and warm socks are a must! Our viewing room is heated so riders and family members should stay inside when they are not riding.

We have some new faces around the barn!

Welcome to Mac and Tosh, our new barn kittens! They are 8 weeks old and have been loving getting to know our students and families who visit them in the barn! They are still very small so to keep them safe, PLEASE DO NOT BRING DOGS TO THE BARN!

Daisy (top) and Otie (bottom) have been wonderful additions to our program and have quickly become barn favorites!

Amazon Smile

Support Unicorn while doing your holiday shopping by selecting us as your Amazon Smile charity! Money raised goes directly to caring for our favorite furry friends and supporting our lesson program!

Tonique is having a baby! At 7 months, the foal is now the size of a raccoon! It weighs around 10 pounds and it starting to develop a mane and tail!

Barn Improvements

Bobby Hanna has been hard at work fixing the shed stalls and building our new sawdust bin! We are so thankful to have him join our team!

Last month we were fortunate to have volunteers from Merck visit to help with farm and trail clean-up. It was a great day and we cannot thank them enough!

Thank you to David and Wendi for donating a beautiful new run-in shed for our back pasture! The horses have been putting it to good use to stay dry and warm during turnout.

Coming Soon...

Our next project will be installing a rider safety wall and new lights in our indoor arena. Please keep an eye out for a Go Fund Me in the coming weeks so we are able to get this important project started!

Instructor Update

Gillian Cannon has successfully completed her CTRI process after several months of hard work! Diana Sheehan, a current volunteer, is now studying for her CTRI exam so we hope to have her as an instructor soon!

Volunteer Update

We recently welcomed Dawn Clark as our new volunteer coordinator. She is hard at work updating our volunteer orientation!
